

Description

AmarCord

AmarCord is a family of umbrellas inspired by the most classic shapes, capable of harmoniously integrating with period architecture and memory landscapes. The key element of the AmarCord collection is the ruffle, available entirely in edged fabric or with the alternation of fabric parts with other fringes. The color combinations between the covering, the decorative edges and the load-bearing structure are combined with great attention to detail and workmanship that make each covering an elegant furnishing element.

Product Sheet

Materials

Solution dyed Acrylic Fabric

Designed for outdoor use, the solution (spun) dyed acrylic fabric resists salt water, chlorine and any type of harsh climate. Colours do not bleed and remain vibrant for a long time. A specific treatment makes the fabric water repellent, mould resistant and protects it from staining. This type of fabric resists the most extreme conditions and is suitable for year-round use in gardens, terraces, pool sides or on-board boats. It's definitely the top choice canopy fabric to select for your Product. UPF 50+ (UV Protection Factor) 280 gr/m2.

Valance - Solution dyed Acrylic Fabric Finishes

The materials used have been specifically selected and treated to maintain our products durability and consistency over time. The lumber we source is the best available to guarantee structural integrity and strength of the product. The aluminum profiles are powder coated or anodized to ensure a longer durability in time. The colors may differ from the real ones.
